

# JASPER CHUKWUJI

## Entry-Level Software Developer

---

### PROFILE

I am a beginner software developer with a broad foundational understanding of multiple programming languages. My training focused on learning core programming concepts rather than specializing in a single language. I am well versed in HTML and CSS for building structured and responsive web pages, and I have fundamental knowledge of C++, Java, and Python. I am capable of developing basic projects and continuously improving my skills through practice and learning.

---

### SKILLS

- HTML5
  - CSS3
  - Basic Responsive Web Design
  - C++ (fundamentals)
  - Java (fundamentals)
  - Python (fundamentals)
  - Programming logic and problem-solving
- 

### WORK EXPERIENCE

#### Software Development Training & Practice

#### *Academic and Personal Projects*

**May 2024 – Present**

- Practiced core software development concepts through coursework and independent study.

- Built basic static web pages using HTML and CSS as part of learning frontend fundamentals.
  - Applied foundational programming principles such as variables, conditionals, loops, and functions in C++, Java, and Python.
  - Developed small console-based programs to reinforce problem-solving and logical thinking.
  - Gained experience reading, understanding, and debugging simple code.
- 

## PROJECTS

### Basic Web Pages (HTML & CSS)

- Created simple static web pages with proper semantic structure.
- Used CSS for styling, spacing, alignment, and basic responsiveness.

### Programming Fundamentals Projects

- Developed small console-based programs using C++, Java, and Python.
  - Implemented basic input/output handling and control flow logic.
- 

## EDUCATION

### Senior Secondary School Certificate (WASSCE)

#### Anchorleg Education Center

2019 – 2022

- Completed senior secondary education.
  - Achieved West African Senior School Certificate Examination (WASSCE).
- 

### Junior Secondary School Certificate (BECE)

#### Akon Education Center

2016 – 2019

- Completed junior secondary education.
  - Achieved Basic Education Certificate Examination (BECE).
- 

## LANGUAGES

- English — Proficient

---

## HOBBIES / INTERESTS

- Learning programming concepts
- Practicing coding
- Exploring software development
- Computer Gaming
